Certifications

Past Performance

Aerospace Industry (Space Launch Systems / Boeing) –

- Role: System Support Analyst/Logistics Engineer
- Achievements: Expertly utilized SLICwave, Creo View CAD, Windchill PLM, and Bill of Materials systems to support complex aerospace projects.
- Value to Clients: Demonstrated ability to manage intricate technical data in high-stakes engineering environments.

Data Management (Caelum Research Corporation) –

- Role: Business Analyst
- Achievements: Implemented data governance practices to ensure delivery of high-quality data to stakeholders.
- Value to Clients: Proven track record in maintaining data integrity crucial for informed decision-making in large-scale operations.

Defense Sector (Aviation and Missile Command / SAIC) –

- Role: Logistics Management Specialist
- Achievements: Provided comprehensive supply chain services for organizational managed equipment.
- Value to Clients: Experience in supporting complex logistics requirements in high-pressure environments.

Past Performance (cont.)

Infrastructure Projects (Bechtel Inc) –

- Role: Civil/Structural Designer
- Achievements: Produced detailed engineering drawings using advanced CAD software for critical infrastructure projects.
- Value to Clients: Demonstrated expertise in supporting vital projects with precision and reliability.

Differentiators

- Agility combined with large-scale project experience
- Proven track record in supporting major corporations across diverse industries
- Diverse team bringing innovative solutions to complex business challenges
- Commitment to data accuracy and security in compliance with industry standards
- Ability to rapidly adapt to changing business requirements and technologies
